

DynaFlow positioned amongst leading GRC Vendors in ‘Hypatia’s Galaxy’.

The report “The Coming Convergence of Enterprise GRC: Benchmarks & Vendors Galaxy Ranking” defines DynaFlow as one of the leading GRC Vendors based on Completeness of Vision, and Ability to Execute.

Montreal, Canada, November 1st 2011

DynaFlow, the leader in Governance, Risk Management and Compliance (GRC), Enterprise Risk Management (ERM) and Workflow Management (WFM) solutions, announced today that industry analyst firm Hypatia Research & Advisory has ranked DynaFlow amongst the leaders of GRC Vendors in the Hypatia Galaxy. Each vendor was evaluated by range of offering and corporate product/service roadmap and vision, execution strength, global reach and number of customers.

Hypatia reserved the highest scores for those vendors who clearly understood the value of two clear capabilities:

- Supporting an integrated approach to GRC, encompassing both IT and enterprise elements
- Providing a technical foundation for GRC that is configurable, extensible and flexible

Further the authors of this report, senior analyst Howard Baldwin and Leslie Ament, vice president of research cited that “A unique functionality of the EZ-Compliance module is that the Segregation of Duties (SoD) scans can be done across multiple ERP’s in a pro-active, detective and corrective manner – resulting in greater visibility – and the ability to rapidly remediate GRC issues that arise.”

Howard Baldwin added, “We found the EZ-Process™ Solution Suite notable for the configurability of key risk reporting indicators (KRI’s) and dashboard functionality embedded within the Enterprise Risk Management layer.” According to Leslie Ament, “This solution offers a comprehensive GRC offering at a very budget-friendly price point--making it an attractive option for small and mid-market organizations.”

“The ranking amongst the Leaders in the Hypatia Galaxy™ is a result of the continuous investments done in new functionality and capability in line with our vision” said Pierre Beaulieu, Managing Partner of DynaFlow. “the EZ-

Compliance GRC Solution provides capability to assess and mitigate risk, both from an IT and Enterprise perspective, thus providing one portal for all risk related matters, notifying the right people at the right time of any issues that may arise. We see the leadership positioning by Hypatia as a confirmation that our vision about where ERM is heading is right, and we will continue to develop and deliver the best-in-class solution for our current and future customers”.
